No More Terror!
No More Pain!
No More Danger!

To Mother or Child
The Dread of Motherhood
Transformed to HOPE
AND JOY.

Safety and Ease
TO Suffering Woman.

A prominent physician lately remarked to the proprietor that if it were admissible to make public the letters we receive, the "Mothers' Friend" would outlast anything in the market.

I most earnestly entreat every female expecting to be confined, to use Mothers' Friend. Coupled with this remedy I will add that during a long obstetrical practice (forty-four years), I have never known it to fail to produce a safe and quick delivery.

GRANT vs. R. F. BARRICK. R. F. Barrick, Plaintiff vs. R. F. Barrick, Defendant. A bill of complaint was filed in the Superior Court of Fulton County, Ga., on the 1st day of August, 1884, in which it was alleged that the defendant, R. F. Barrick, had wrongfully and unlawfully taken possession of certain property belonging to the plaintiff, and that the plaintiff was entitled to the same. The court, after hearing the evidence, rendered a verdict in favor of the plaintiff, and awarded him the property and costs.

RAILROAD NEWS.

THE HEADLIGHTS RUNNING INTO ATLANTA.

The Engineers and the East Tennessee, Virginia and Georgia Steam Plov on the Railroad—Louisville and Nashville Matters—Local and General Railroad Notes.

A circular from the Port Royal and Augustin railway company, signed by President Mead, says:

Next Sunday week a "conductors' association" will be organized in Chattanooga with twenty charter members.

At Chattanooga, Ed Schofield has been appointed local freight agent of the Western and Atlantic Railroad. John Caldwell succeeds him as recording clerk.

The freight business of the Central railroad has increased fully thirty-three and a third percent within the last two or three weeks, and the other lines are enjoying a marked increase.

Mr. J. S. Durant having resigned the position of general freight and passenger agent of this company, all communications relative to the business of the department will be addressed to Major W. F. Shottwell, the manager, Savannah, Ga., who will assume its conduct till further notice.

The report of the month of July shows a total of eighty-nine accidents, in which twenty-five were killed and 142 wounded, a decrease of thirty over the corresponding month of last year. Thus for this year the monthly average has been ninety-nine accidents, thirty-one killed and 142 hurt.

Massachusetts leads in all the states in passenger traffic, her roads carrying 55,000,000 persons last year. Pennsylvania is second, with 50,000,000; New York third, with 45,000,000, exclusive of elevated roads; New Jersey fourth, with 23,000,000; New Orleans fifth and Ohio sixth.

New Orleans: The Alabama Great Southern division of the Queen and Crescent route is gradually being placed in first-class shape by the insertion of steel rails in place of the iron ones heretofore in use. Considerable work is also being done on substituting stone and iron bridges for the wooden ones formerly in use south of Birmingham, Ala. The road-bed is being ballasted and raised throughout, and in many places the track is being relaid and filled in and rendered more solid and substantial.

Louisville and Nashville Matters. The Courier-Journal, speaking of the readjustment of the Louisville and Nashville, says: It is proposed to issue 10-40 bonds to the extent of \$5,000,000, and preferred stock to the same amount, the coupon stock now in the treasury to be cancelled. This preferred stock to be given as a bonus to those who take the bonds, and the other to be made first to the stockholders, thus giving everyone an opportunity to contribute his share with the others.

This preferred stock is to have five per cent dividend only when earned, and is non-cumulative, but after the common stock gets its five per cent dividend, both are to share alike. This in effect increases the capital stock to \$20,000,000, and the bonds to \$5,000,000, which is one way is equivalent to an assessment of 20 per cent for those who consent to provide for the floating debt, and to put some money in the treasury.

The Engineers Win. For several weeks past there has been trouble between the officers of the East Tennessee, Virginia and Georgia railroad and the brotherhood of locomotive engineers. The trouble grew out of a reduction in wages of a certain class of engineers, and an increase of five per cent in the salary of the remainder. The brotherhood at once sent a committee to Knoxville to present their grievances to the General Superintendent O'Brien and if possible obtain an amicable settlement. The committee spent ten days, in a vain endeavor to have a conference with the superintendent on certain divisions of the system he had until finally Major O'Brien set apart yesterday to meet the committee. They presented their grievances and also their terms of settlement. They demanded that passenger engineers on certain divisions of the system be paid the uniform rate of three cents per mile and freight engineers four cents. Yard and work train engineers to receive \$2.50 per day, after a prolonged session the terms were accepted by the general superintendent, and both parties signed a permanent agreement to this effect.

A Steam Plov on the Railroad. From the Charlotte Observer. The latest thing on the railroad is the steam plov, used in plowing up the ditches along the track. This novel invention was yesterday put to work on the tracks of the associated roads in this city. It is a machine, the road master for Charlotte district. The machine was yesterday at work in the cut out by the female institute, and the result was very satisfactory. The plov is an immense shovel attached to a flat car by a heavy chain, and a man, when the car moves the shovel buries itself in the ditch by the track, making a clean, deep furrow as it goes. The flat car, with its shovel attachment, is drawn by a locomotive. This is the first machine of this sort that has been worked in the southern states, and is only another evidence of the progress of the time in railroad circles. As by its use as much ditching can be done in one hour as is ordinarily done by a railroad hand in a whole day. It not only opens the ditch but clears out all grass from the sides of the track at the same time.

Chattanooga's New Depot. From the Chattanooga Times. It seems that the question of a separate depot for the Alabama Great Southern Railroad and the Cincinnati Southern is settled beyond peradventure. The two railroads find that they lose so much time by backing through the city to the union depot that they have found some change necessary. The rent of \$400 per month, which they pay for entry into the union depot, while not excessive, when it is considered that all expenses are included and is less than it costs the owners of the depot, still they find it large amount, and this also influences them in their action.

It is understood that the present Alabama Great Southern freight depot will be converted into a passenger depot. The Cincinnati Southern freight house will be enlarged, and the entire freight business will be condensed in that building. The freight trains in the Alabama Great Southern will be increased, and long sheds and platforms will be built for the accommodation of the trains.

We learn that the depot will be used within six weeks. It is stated that the Western and Atlantic road will stop at a platform near the depot to transfer passengers and these other trains which pass near that point will do likewise.

Mr. Ashley Wallis, of Johnston county, North Carolina, has split 10,000 rails in the last month, and also cleared three acres of land. Also during the same time he gave three barrels of cider away and put up three mules of fence.

The Bathing Season.—A bath perfumed with the genuine Murray & Lenoir Florida water, is the most perfect restorative which can be used during hot weather. It not only benefits the body, imparting new vigor to each member, but under the exhilarating action of this exquisite perfume the mind recovers its exhausted powers and acquires additional brilliancy. To distinguish the genuine article from its imitations look out for "Florida Water," a narrow white strip lying bearing the signature of Lanman & Kemp, New York, sole proprietors.

The penitentiary at Nashville per annum makes 31,000 wages, of which there are sold in Tennessee, 1,250. The total sales of penitentiary products, furniture, wares, etc., for the year 1883, was \$647,737. Amount sold in Tennessee, \$29,200. Amount of money brought into the state for that year \$268,537.

Peppered With Shot.

MACON, Ga., September 4.—(Special.)—This afternoon, while the Macon Sportsmen's association were practicing shooting at clay pigeons near the river, Mr. W. Morris was crossing over the trestle in front, and was shot in the face and hand by Mr. McHaffon who called and soon relieved him by cutting out the shot.

Alpha Tau Omega.

MACON, Ga., September 4.—(Special.)—The members of this well known fraternal order have been called to meet in Macon, Thursday, October 30th, during the state fair. The executive committee has made all necessary arrangements for a large meeting, delegates from nearly every state in the Union will be in attendance. Mr. L. L. Williams, secretary of the executive committee is sending out notices of the convention, and the outlook for an interesting meeting is most promising.

The Brewery Fight.

MACON, September 4.—(Special.)—It has been reported in Macon that on August 28th, the negro who was charged with the murder of the brewery, was dead. Nothing could be heard of it from any source until a telephone message from the brewery of Messrs. Hicks & Heard, Fourth street, Judge Matt R. Freeman announced the death of the man.

The message came from the country, and asked the judge to hold an inquest. He declined when he was told for he would go. This was regarded as a fact, but later in the day he was seen in the city, and it was learned that he had been out to look over the matter, but did not get there late, to look on. Everything was quiet, and the man was dead.

For that reason the city authorities were not disturbed. In the night, a man was found lying on his back, cheerful, and did not get there late, to look on. Everything was quiet, and the man was dead.

It is a bright, sunny day, and the man was found lying on his back, cheerful, and did not get there late, to look on. Everything was quiet, and the man was dead.

WHOO! LA BLAINTES.

Rip-Roaring Jollification at Customhouse Last Night.

It was almost midnight before the republican celebration meeting adjourned last night. Just before the hour appointed for the meeting to begin, a small procession, headed by a brass band, paraded the business portion of the city and succeeded in drawing a crowd of perhaps four hundred, to take part in the meeting and listen to the speeches, which were made from a roughly constructed platform—a sort of extension of the lower portion at the Fourth entrance to the customhouse.

In the front and in the rear of the procession mentioned above were transparencies, bearing inscriptions, and on one of which some clever artist had sketched the faces of Blaine and Logan. Shortly after the speaking began, the crowd in the street between the Hotel Vendue and the customhouse, was densely packed with negroes, and while they listened, apparently understood little of what was being said.

THE MEETING OPENED.

It had been arranged for Colonel A. E. Beck to open the meeting, but being absent, Judge John J. Martin of Louisville, in a brief address, which he delivered in a brief address, accepting it gracefully. He then announced that the meeting would be opened with a prayer by Rev. J. J. Gaines, who arose and repeated the Lord's prayer.

THE SPEAKERS.

The first speaker announced was Mr. Jonathan Beck, who spoke for the republican party. He made a long speech, in which he eulogized Blaine and Logan, and urged the republican cause. He was followed by Mr. J. J. Gaines, who also spoke for the republican party.

THE TARIFF QUESTION.

was the main theme of the evening. His speech, which was the most of the evening, was a long and eloquent one, in which he eulogized Blaine and Logan, and urged the republican cause. He was followed by Mr. J. J. Gaines, who also spoke for the republican party.

THE HOCKING MINES.

A Warning to the Miners of a General Strike.

COLUMBUS, O., September 4.—Superintendent G. R. Carr, of the Columbus, Hocking Valley and Toledo road, has sent a long telegram of friendly mention to Chris Evans, Stratford, Ohio, a district president of the miners union, informing him that unless the striking miners stop work within a day or two, at the rates offered by the operators, all the mines at Stratford will be abandoned by the syndicate. Stratford is the only town of consequence in Perry county, whose sheriff has refused to ask for aid or take steps toward protection of property. The operators have concluded to concentrate their guards at the mines on the Hocking and Athens companies at two or three places, and hold the authorities of Perry county responsible for the damage to property in that county. This order has not been given by the syndicate, but it is looked for in a day or two. A large number of miners in Stratford own the property in which they live.

THE KENTUCKY TOBACCO CROP.

CINCINNATI, September 4.—A pretty careful investigation as to the condition of the Kentucky tobacco crop, made by one of the Cincinnati houses, indicates that the acreage is not as large as has been generally supposed. For the five counties of Boone, Fayette, Jessamine, Scott, and Woodford, it was reported early in the season that an aggregate of 20,000 acres had been put in tobacco, which indicated a crop of about one-third over the usual acreage. The present estimate gives an aggregate in those counties of only 14,000 acres. South of Cincinnati, about sixty miles back from the Ohio river, the crop is in excellent condition. Some of the fields are now being cut. Between here and Cincinnati the drought has damaged the crop.

THE LOUISVILLE AND NASHVILLE STOCK.

NEW YORK, September 4.—Concerning the new issue of \$400,000 6 per cent bonds and \$250,000 4 per cent preferred stock of the Louisville and Nashville railroad, nothing further has transpired, says the Louisville and Nashville railroad directors. The stockholders will be offered the entire amount of the new issue, which is equivalent to 20 per cent of their present holdings. The preferred stock will receive the first 5 per cent, then the common stock will be paid a like amount, after that both common and preferred will share and share alike. The company's floating debt will be reduced by a new issue of preferred stock.

AN ATTEMPT TO RELEASE PRISONERS.

VIENNA, September 4.—The Warsaw correspondent of the Tagblatt says an attempt was made on the night of August 31st, to rescue from the citadel Judge Barokovsky, Vauck Janowich, and other political prisoners. The conspirators raised the Constantin gate of the citadel from its hinges and, penetrated the corridor. The noise made by the assailants attracted the attention of the officials, and they rushed to the spot. The prisoners were rescued, leaving their crowbars, files, sacks and ropes behind them. The prisoners were found to be clothed and ready for flight. The officials connected with the citadel are suspected of complicity in the plot.

COL. WALSH'S LETTER.

In Which the Political Situation is Reviewed.

The following is the editorial correspondence of the Augusta Chronicle and Constitutionalist, by Hon. Patrick Walsh, which was published on Wednesday's Constitutionist. It is published by request of the editors of the paper.

HOT SPRINGS, Va., August 27.—The nomination of Governor Cleveland for the presidency of the national democratic convention has its advantages and disadvantages. Like others from the south who voted for the nomination of Governor Cleveland, under the conviction that he was the man of all men to lead the democratic banner to victory, I felt that the opposition to him in his own state was similar to that against Mr. Tilden in '76, when his nomination was so bitterly opposed by Tammany hall. It will be remembered that Mr. Kelly and his friends said it was impossible for Mr. Tilden to carry New York. Mr. Kelly fought his nomination bitterly and vigorously, but the Tammany chief came into the convention after Mr. Tilden's nomination and changed the ticket. His hearty support of Governor Cleveland for the presidency was not in the least diminished by the fact that he was not in the city when the nomination was made.

In 1880 the Tammany hall people defeated Mr. Tilden at Cincinnati. Mr. Tilden nominated Cleveland for the presidency. Mr. Tilden was defeated in 1876, against the repeated protest of the majority of Tammany hall. It appears that Governor Tilden and Governor Robinson used all their influence to wipe out Tammany hall. By way of retaliation Mr. Kelly ran against Governor Robinson, who was defeated by a large majority. Tammany hall defeated Governor Robinson in 1877 and prevented the nomination of Governor Tilden for the presidency in 1880.

The charge has been made and repeated often that Mr. Kelly and his friends defeated General Hancock for the presidency. After the election of New York City shows that this is not true. The falling off in the democratic vote was not in the precincts or districts controlled by Tammany hall. The falling off in the democratic vote was not in the precincts or districts controlled by Tammany hall. The falling off in the democratic vote was not in the precincts or districts controlled by Tammany hall.

Tammany controls four thousand votes in the city of New York. In 1876, Mr. Kelly was more bitterly opposed to the nomination of Mr. Tilden than he was to the nomination of Governor Cleveland. In 1880, Mr. Kelly pledged his support for the nomination of Governor Cleveland. Mr. Kelly and Colonel Fellows did not appear on the platform, shake hands and pledge New York to the national democracy, and Mr. Kelly has not yet been heard from since.

The truth is that Mr. Kelly and his friends are not so much interested in the nomination of Governor Cleveland as they are in the nomination of Mr. Kelly. They are interested in the nomination of Mr. Kelly because they are interested in the nomination of Mr. Kelly. They are interested in the nomination of Mr. Kelly because they are interested in the nomination of Mr. Kelly.
